

SHADEGLIDE CANOPIES

HARDWARE

- Thin metal cables stretch from one end of the structure to the other
- The fabric panels attach with clips that slide on the cables and allow the fabric to be easily removed for cleaning and storage
- The cables also have turn-buckles which can be adjusted to keep them taut

USE

- The fabric panels slide back and forth on the cables to provide shade as needed
- A pull stick is included to help reach the overhead fabric panels
- Optional security straps or tie back cables are available to keep the panels retracted in heavy winds
- Optional boots are available for winter storage

Infinitely
Versatile and
Customizable

Slide wire cable canopies are the perfect addition to your deck or patio space. They are easily adjustable, giving you tons of options for look, feel, and performance.

SERVING FAMILIES IN THE INTERMOUNTAIN WEST SINCE 1941

FRAME

- A slide-wire cable canopy system can be installed to an existing structure like a pergola
- We can also custom design and manufacture aluminum frame structures to which the cable canopy system can be attached
- Our aluminum frames come power coated in black, white or bronze. Custom colors are also available

FABRIC

SugarHouse Awning's slide wire cable canopies are made from fabric that is exceptionally durable and highly customizable. Two types of fabric options are available: woven acrylic or vinyl coated polyester mesh.

Acrylic Fabric

- Made with reliable, name-brand outdoor fabrics such as Sunbrella® and Dickson®
- Carry a 10 year limited warranty
- Come in numerous color options in both striped and solid patterns
- Provide nearly 100% UV blockage and are opaque. They are ideal for shade and privacy applications
- Drain grommets are recommended when using this material in order to prevent water from puddling, which can damage both the fabric and framework

Mesh Fabric

- Panels are made with reliable, name-brand outdoor fabrics such as Awntex® and Textilene®
- Carry a 5 year limited warranty
- Block the sun but not the view. Our vinyl-coated, polyester-fiber mesh fabric stops 80%-95% of UV rays
- Come in numerous color options from which to choose
- Are infused with Microban® technology, an antimicrobial that inhibits the growth of stains and odor-causing bacteria
- Offer excellent shading advantages without trapping heat or airflow
